7. Tosuka10's Dream
1. The Sleeping Beauty
Oh, my god!

It sounds like the lightning has struck somewhere.

What a big thunder!

I forgot to close the shutter of the chicken coop.

Oh, did you?

Something flashed at that mountain. I wonder what it was.
Sorry to keep you waiting. I'm gonna close the shutter soon.
I could finally clear this stage.

Next stage will be "An artificial solar city planning".

"Congratulations, Lue. This city is yours. Good luck for the next stage."

If Tosuka project had carried out 400 years ago, would we have a paradise now like in this game?

What a terrible noise!

Why Toska project was cancelled?
Is the satellite communication circuit broken?

Something has been wrong since the lightning struck.

Help

Hummm

I'll check the antenna tomorrow.

Bloop

Hey, wait!

Lash

Hello! Hello!
It's strange. Everything is fine.

I can't see any pictures.

I'm Tosuka10. Somebody, help me!

Again.

Tosuka10!?
DONG  THROB  THROB  CRASH  CLUNK

Somebody help me!

Ah, this broadcasting is not from the satellite.

I'm Tosuka10.

Get a picture.

Yeah, this face! This is Tosuka10. Is someone playing a trick? Anyway, let's go and find out.

It is broadcast from the direction of this antenna toward. It's from that mountain.
The direction is settling.

Is that you calling me?

An antenna at that place? It's strange.
Why you are in the box?

It's not worth talking to a child. Go home.

That's great. You look real.

I'm a computer. This is the 3D scenography.

I had a lot of trouble finding this place.

What did you say? YOU called me!
What do you want me to do?

I was calling an excellent operator.

I called Mother, but there was no answer.
The power must be not enough.

The antenna went up only half way.

Are you joking? I'm a huge and great computer "Tosuka10". I need a high-tension wire of 20 thousand volt!

Shall I bring you a battery for a communications computer?
Oh, what a child! It's waste of time! I NEED electricity right now.

You, computers can communicate to the other side of the earth by a battery.

Stop shouting! You ARE such a child.

Give me electricity! Give me electricity!

Tosuka10.

Is it?
Who are you?
I'm Giru.

Do you know this fretful child?

Look at this plate.

Have you ever heard of "Toska project"?

This is the giant metropolis control computer "Tosuka" No.10.

That's right.

He is better.

Oh, ancient civilization. That's why it's so funny.

This is the ancient monument that was built 400 years ago. Wow! It's real one.
She looks different.

Tosuka project was a human renewal project. Building a high civilized society by assembling talented people from all over the world.

According to the plan, it had projects of the nuclear fusion development and the space development. It promised to build an artificial solar city and a space colony. Tosuka10 was one of a terminal located on this area for the information and education control.

What are you talking about?
What is this year's Christian year?

Did you say "ancient civilization"? "monument"?
What do you mean?

No, no, it's 2436.

It's 2054.

Look all around. The scenery is completely different from the one you used to live.

You seem to have been sleeping for 400 years.

That's why there are a lot of concrete.

It must have been a street of office buildings around here.
It must have been discarded 400 years ago when giant metropolis was dispersed and Tosuka project was cancelled.

You are looking for Mother Tosuka, right?

Dispersed?

Cancelled?

CRACK

No way
Tosuka project is to save and keep developing people.

No. It must be 2054 now.

There is no way to be cancelled.

CRACK

CRACK

BLOOP

Look!

My head....

The antenna is going up!

HUMMM
Mother! This is Tosuka! Over!

Send me response!

CLAP

Mother!
BOM

Mother

LASH
She was really something.

What did people want that child to do?

She was just a useless egghead.

The restarted memory must have been incomplete. She was so much smart to make paradise or anything.

Who did you say egghead?
Wow! How could you come here?

Tosuka10!! She looks different.

Don't tell me...

This computer has much memory than it looks.

If people is existing without Tosuka project, I want to see it with my own eyes.

Are you plotting something?

BONK Oh my god! All my files have been deleted.

Oh, boy!

Wow!

Believe me. I can't do anything with this poor memory. Let me stay here.
People didn't know what to do with the mega-industrial civilization in the 21 century. Following the proposal from Far Eastern Island, they started to seek "Island area system" which is basically support themselves from their own energy, products and foods.

More than 400 years have passed. Many high technology broke down, but here in "Kaka island area", the wound of civilization was healing gradually.
2. The Anxious Tower
What's this? It looks like a toy car!

This is the latest car.

It looks like a toy but it's all right.

I want to ride a super car in ancient civilization, though.
Is it enough?

This will be fuel for today's drive.

It's alcohol made from sweet potatoes in my garden.

What's that?

It's just like a toy again.

You mean this controller?

Is there a steering wheel in this car?

No. She is not interested in ancient civilization.

Really?

Is Giru coming?

Shut up, Tosuka10! Are you going to drive, Ruu? You are under age.

Well, let's go!
Oh!

Hello.

Giru!

I'm just wondering if there is something wrong with Tosuka10.

No.

You don't believe me.
Do you know why Tosuka project which built a giant metropolis was canceled, Giru? I talked with Ruu and his father last night, but I can't get it.

I think it was good that Tosuka project was canceled because I like our life style now.

I don't know either. It happened 400 years ago. I had not been interested in ancient civilization till I met you.

We are going to see a tower in the next city. It is the only tower that remains from ancient civilization.

By the way, where are you headed?

Well...OK.

Can I?

Come with us, Giru.
Now I see. Any children can drive this poor, slowly car.

Wow. terrible road!

Ancient civilization is the best, anyway!
I'm entering the destination numbers.

ZaZa in Konamicity

What are you doing?

Well ...

It's an expressway.

What's this?

Even a train.

It's very easy to go far away.

A bicycle is running, too.

The car will move by automatic operation.
No way.

Are you planning to do something?

Ruu, can you connect my cable to a car computer terminal?

That's great. Fuel consumption is reduced dramatically after we get on the expressway.

Yeah, it was unexpected.

So you are impressed.
My father said that most of our technology is inferior to the one in ancient civilization, but the energy efficiency of expressway and windmills is better.

What an easy car!

RUSTLE

Like this.

Let’s get off.

Get off? Where is the exit?

We are near the tower now.

PHEEP PHEEP
Do you?

Sure.

Ha, ha...

I know this tower.

Since I saw this tower, I started to be interested in ancient civilization.

I've seen it in my textbook or something.

This tower is called "Anxious Tower" because it looks unstable. But strangely, it remained unmoved in the big earthquake 100 years ago.

Why did they specially built such an unstable tower? We can't built houses around here for it.
This is the tower that proves the high technology of ancient civilization! It must have been an anchor for ancient people!

What a strange ancient civilization.

Ridiculous. You don't have to explain it hotly.

Hey, what did you say, Tsubasa10?!

It IS ridiculous that only this tower remained.

By the way, what is this tower?

Let's go inside.

It's OK. I guarantee.

This is the off-limits area. It's dangerous.
O.. OK.

There is a computer terminal on the left. Can you connect?

Let's go.

HUMMM

PHEEP

It's opening.

Y. Yes.

HUMMM

It's moving.
WOW!
Tower of entertainment?

Computer game, roller coasters, electronic casino, anything, it's a tower of entertainment.

game arcade!!

It's a game arcade.

What is it, Tosuka 10?

Where is it?

Ruu, there is a super car game over there.

Cool!
Sure. Can you connect the computer terminal, Ruu?

It's narrow inside.

Is that right?

You need 100 times as much fuel instead.

This car can run 10 times as fast as ours.

OK.

Let's get started.

TANTARA
Great! They are all projected on the screen.

It's sky.

Look up.

We are in town.

All right.

Just drive as I told you. You can go anytime you like.

BRRRRM

Let's start.

AW

Ruu, turn right!

AW www
It's my talent.

You are getting better, Ruu.

Special mission from headquarters! An atrocious criminal on the lam is on the car in front of. Destroy it immediately.

TARAA

Hurry up, Ruu! It's going away.

Giru, push that button then you can wipe out.
Nice going, Ruu.

Don't worry, Giru. It's just a game.

Hurry up, Giru. It's going.

What?

Push it now, Giru.

---

BANG

CLICK

BANG

BANG

BOOOM

I did it!
Well done, Giru!

He has a big gun.

Look! He is moving.

BANG

No!!

Give the finish. Now, Giru.
BOOOOOM
RUMBLE
GAME OVER
HA-HA-HA
SOB SOB
POUND POUND

SIGH....

Sorry.

What are you laughing at, Tosuka10?
I've had enough. I do admit that ancient civilization is superior.

If you want speed and a thrill, you should go to ancient civilization.

This world is better for enjoy driving.

It sure is superior. But looking the cars and windmills of this age, I'm getting confused what the ancient people wanted to do.

Was it my mission to make many "Anxious Tower"?
No way! I can't understand why they made such games!

It would be fun if there are such towers all over the world.

BAH!

HA-HA Don't get so serious, Giru. Just a game.

Hey, you WERE serious too, Ruu.

When did you take them?

Oh no.

Look at these.
3. Hologramming Field
What are you looking for?

Come this way.

What are you talking about?

There are a lot around here....

Beautiful stone.

What is it?

Here it is!

This stone is IC that was made at IC factory which was at the upper portion of this river 400 years ago.
I'm sure you'll like them.

You can see beautiful pictures from it.

I think so too.

It's a stone of ancient civilization.

I'll go to the upper stream and look for the stones next week. Why don't you come with me?

You don't know until you try.

What kind of things can we see?

Remember what you said? We haven't found anything yet.

That's strange. I could find them easily when I came here last time with my father. It's true!
No. This is Number A again.

SHOO

Yes. R is the number of hologram. The others are just empty memories.

Do we really have to find Number R, Tosuka10?

We have eaten lunch and all sweets, so let's go home.

All stones are Number A or B ....
This is the one, Giru.

Let's go to Ruu's house and check it out.

Can you tell what kind of hologram is this from these numbers?

No, I can.

Nobody knows, ha-ha.

No way, Tosuka! 10!

It may be a picture book of reptiles.

I hope we can see the town in 21st century.
Can't we see it without your dad? We tried so hard to find it. Oh, I want to see it right now.

Dad hasn't come home yet. What shall we do?

Out...

It was made 400 years ago and...

It's not sure if we can see it or not. Sometimes it's broken. You know,

I'll try it in the workplace.

Let's do it! Let's do it!

Well, let's just do it. I was watching while dad was doing before.
Wow, messy room!

I'm going to start, Giru. Oh, they are cute! ❤

RASP RASP

GRRRRR

SQUEAK

FRIZZ
Wow, it became clear.

Look.

Be careful.

There must be a projector in this box...

CLICK
Oh, it's working!

Wow!

and the aquarium, too.

Look at the chair.

Look! The ceiling is splitting!
Great!

Ruu, look at that!

I was made snow because I'm a machine.

Where is Tosuka-10?

A penguin! So cute.

It sure is.

I can touch him. It's amazing.
Can I touch the snow, too?

Yes.
It's snow!

KWEEEE
YAHOO

SHOO

SPLAT  HA-HA
SHOO

Oh, this is the good one.

CRASH!

CRACK

KRUNCH
Help, Ruu!

E E K

CRACK

Giru

What's going on here?

Giru!
A door is on the other side, Ruu.
Relax!

A wall? Is it a wall?
Where is a door?

Oh, no! Giru-!
CRASH

Giru...
Damn it!

Giru
Damn it!

SPLASH

Awk

SPLASH

Giru!
Giruuuu
....

Giru

...

...
It happened not so many times, but that was the reason why the holography was discontinued. I never thought it happened to Giru.
Usually?

It usually takes a few hours.

How long does it take to wake up?

Were there anyone who didn't wake up before?

What do you mean?

Oh, God!

Why are you here, Mom and Dad?

Giru!

I'm so glad, Ruu.

Have some hot soup.

Thanks.
Good morning, Ruu.

Yes, I'm fine.

Giru! Are you all right?

Yeah... he may be right.

My daddy said not to play with Ruu.
Oh, I shouldn't have cried in front of my dad. How stupid!

Never mind.

Are you sure? It was not your fault. The holography was wrong. I also wanted to see it.

What?

I brought Number A stone with me the other day. Are you sure only Number R work? Why don't we try it?

I'm just kidding.
Let's go, Ruu.

SPAT

END
4. Doll's House
Look, Ruu.

Yeah, let's go again in the flower season.

That source of a river was beautiful, wasn't it?

It's gorgeous.

W.. Wait.

Looks like nobody is here. Let's check it out.

!?  

Oops!
There were many people who had such eyes at my laboratory 400 years ago. Thousand-yard stare.

What do you mean? Her eyes seem familiar. She is living here.

What's that?

Look!

Giru, wait!

This house is strange. Let's go in.
Something wrong?

Nobody seems to live here.

Hello...

Hello.

CLICK

Even in the house is paved with stone.
Just like a garden.

Ha-ha... Doesn't look like in the house.

Look at that room!

CLEAK

Wow!
I feel strange.

What a nice greenhouse!

Green monster!?

Look!

You are the first guests.
Ho-ho

Welcome to my house.
Ho-ho
Oh, you know biological simulation, don't you?

What's that?

Yes

Biological simulation?

Biological simulation.

Yes, daddy.

Don't be so rush.
Come on, Cell.

B.. Bio

H..., hello.

Say hello to the guests, Cell.

Daddy?

I'm Giru. This is Ruu and Tosuka10. Nice to meet you.

The flower was in the garden. It looks good on your black dress.
Let's go.

I'll show you something wonderful.

It's a hot spring.

I collected them.

Beautiful stones.

It's hot.
Some fruits!

This spring preserves the garden, doesn't it?

Try some?

Look.

Here you go!

OOh

Hi

Sigh

I'll go and get some.

Cool!

Wow!
How sweet!

Yummy.

Daddy!

Ho-ho...
Having fun?

What's the biological simulation? Are you really Cell's father?
I've never seen such a cheerful Cell.

Give them some tea, Cell.

OK

Biological simulation is the technology which was banned 400 years ago.

They made elaborate human gene-injected moving dolls and built a doll's town in the past.

People played war simulation games and tried out various experiments.

Gradually they couldn't tell people from the dolls and the town turned into hell.

I'm a doll that Cell's father made.

And you.....
Come this way.

This is it.

CLEAK

It's making my body for the next month.

Biological simulation!!
Cell lost her mother when she was young and her father died 2 years ago.

After her father was taken with illness, he unlocked this machine that was hidden in the basement.

Cell was left alone in this large house. How lonely she was.

She still calls me "daddy" even if there is nothing but glasses and a lab coat left her father.
Daddy?

Ruu.

Sure.

I want to check in the machine. Can you connect the computer terminal?

CLICK

FSSSSSSST
The terminal is too hot to take off.

Ouch!

What did you do, Tosuka-10?

Can you do something, Ruu?

U...

Are you OK?

Ugh...

I took off the battery of Tosuka-10.

I did it.

...We must stop biological simulation.

Good. What was wrong with Tosuka10?

Ungh
Stop? What are you talking about?

It's true. Shall we stop it before we report to the police?

No! Don't do such a thing!

This is the crime in any reasons.

But .... I mean we turn off this machine and get off this doll, too.

I don't like Tosuka project and biological simulation but he is Cell's father, isn't he?

You always say that you don't like ancient civilization. So you don't have to worry about it, right?
Your father died 2 years ago. Remember? I'm a doll that your father made.
If you always see shadows, you would be like a shadow.

You need friends, Cell. Real human friends.

I tried to stop this machine many times but I couldn't when I saw her sleeping face.

What?

Please take care of Cell.

Ho-ho.... Giru, Ruu,
FSSSSSST

Goodbye.

Wait!

..Wait..
Cell...

Whaaaaa

Whaaaa
Ruu, Ruu!

We found out her uncle and he took her in.

How did she do after that?

I got a letter from Cell.

Giru

Can you move, Tosuka10? I want to see it.

Look. Here is a memory of photo.

She's got sparkling eyes.

She looks great.

Can you make a memory of our photo?

OK.

OK.

"Dear Giru, How are you doing? I'm just fine. ----- I want to go back to that house when I grow up. ----- I must go now. Take care."
"I'm glad to hear that you are doing well. I sometimes visit that greenhouse, Cell. It's still beautiful with big shining leaves.

No worries, Cell. I'm waiting for you to come back here!"
5. Canned Flower
Why didn't you ask Giru to come?

CHUNK

Ruu

Isn't she? Something is fishy, Ruu. What happened?

Well...

CHUNK

CHUNK

THUNK

Giru isn't interested in collecting these junks anyway.
I'm coming.

Hello, Ruu.

CLATTER

Oh, this is the plant I gave him.

CLATTER

SPLASH
The plant I gave you is dying.

Hi, Giru.

Uh-oh.

How dare you say that!

You shouldn't have given me such an easy dying plant.

I'm going home.

That's disgusting!

...that kind of trivial thing.
BOOM
You're stupid, Ruu!

HUMM
...what are you doing?

SLAM
Hey,

PLINK
UNNNNGH

UNGH

DENGA-DENGA-DENGA
God!

It's true!

Yeah, people used to build up an island only with junks in the middle of the sea.

So many!

An island? You're kidding.

Ha...

Something is in inside.

No holes.

Rurtle

It's true!

This is quite good.

I know I know

Ruu, let me see it.

Canned flower?

Uhhuh.

Canned flower.
I'm sure Giru likes it.
Giru is there.

No thing.

Why are you hiding there?

On the windmill.
FLUTTER

CLUCK

Come on.

Thank you for your egg.

She is coming.

Shut up.

Giru is a hard worker. What a difference from you!
Wow, really beautiful now.
Tosuka10?

Did you grow these flowers?

Hi, Giru.

H.. hello

Ruu, let me have a closer look.

uh...

Thank you. It's kind of strange to be told from you, computer.

They are so beautiful in full bloom.

You really like flowers, don't you?

This is my garden. A bit small, though.
A can? It's unusual.

We found it in the rubble. It's an ancient civilization.

Oh, yeah.

I have a present for you, Giru.

Well... What's this, Tosuka10?

What's this? Flowers?

when you open it.

It says you can see flowers...

GRATE

GRATE

THUK

OK. Let's open it!

Am I? Actually I'm a repair man in my house.

You are so dependable, Giru.

Yeah.
Well, shall we do?

Soil!

This is...

FOOOOSH

Water!

BOOUM
FSST
FSST
What's this?

POUND POUND

Yes. It's a blossom bud, Giru!

A bud?

They might be fireworks not flowers.

It IS strange.

It IS a canned flower!

POP
alterations...

Yes. Made some alterations on it though.

Is it a really plant, Tosuka10?

It's a flower bud.

It's opening up.
Beautiful.

I've never seen such a flower.

And colors, too.

The flower is changing its shape.

Clink.

Smell something ...

Pollen is popping.

Yeah, it doesn't smell good.

It has strange smell.
CLINK
CLINK

POP
FLOP
RUSTLE

Look.
It's growing again.

Wow!

Hello.

OHO!
WOW!

You can get free
"Dream Tour".
Anywhere you like.
Where do you want to go?

Thank you for your business.

Anywhere?

Well...
Aye-aye, sir.

How about space travel?

Where shall we go?

Wow!

Aye-aye, sir.

I want to go somewhere with lots of flowers.
Oh!

Where is the space?

Fantastic!

No. Stay here!

Get back to the space!

All right, all right.

Space!

Here!
Wow!

I'll give you special services!

No, no. I like it.

Turn me back!

Oh, you are nice-looking couple.

You are having fun, aren't you?

We are gonna fall down.

Don't move so hard, Ruu.

Back

No no.
Wake up, Giru.
Wake up, Ruu.

Oh, God...
Yech.

What are you talking about? Will you stop this can's mouth?

What's wrong with this flower?
It's strange!!
It seems to contain some drug that give you an illusion.

Some of them contained drug for using at parties.

People used to make many kinds of cans by using biotechnology, and gave them to their kids for presents.

Are there any seeds?

I don't understand.

It's not a plant!

It has been in a can for 400 years. But once it comes into flower, it soon ends up like fireworks. It doesn't make any sense.

Seeds? No way.
They are different stories.

What are you telling me for?

You had fun, didn't you?

Never mind. This flower can finally return to the soil.

Flop

Are you all right?

Augh

TAP

Have a good night in my garden.

RUSTLE
Don't get angry, Giru. Ruu thought you would like it and gave it to you as a peace-offering.

Hey, shut up!

Let's go home, Tosuka10.

Bye.

Thank you for coming, Ruu. Let's get together sometime.

RUSTLE

Giru, I'm sorry for the other day. I'll try to take care of that plant again.
Yeah.

So you moved it into the room, didn't you?

Yeah.

It looks better.

So do I.

I hope it will bloom soon.

END
A phone is ringing.

Wake up, Ruu!

Hello, Ruu speaking.

Hurry up!

Do you know it's a Sunday morning?

I heard you revived Tsuchka10, Mr. Ruu.

This is Gaze Kaize from Ancient Civilization Museum.
6. Ancient Civilization Museum
Why are you going then? It's not like you, Tosuka10.

And I said No.

He wants to copy Tosuka10 for the research of the museum.

Wow!

Look. This is it.

The museum used to be "Institute for Near Future". That is the place where I was born 400 years ago.

zoomoom
Is this the place?

It says the museum is the east side of Culture Park.

Yeah, it looks like a administration office of the park.

It's quite small for a museum.

Hello-!
Thank you for coming, Ruu and Giru.

I heard this is a warehouse of the Institute. Other buildings were already destroyed.

Do you call this "Institute for Near Future"?

where is Tosuka 10?

By the way,

You're teasing me.

Here. This is it.
Look at this. This lady is Tosuka10.

Oh, it's big.

Wow.
There is not much exhibits. It's just like a Ruu's room.

Look at this celestial smile.

real! It IS

By the thunder? Unbelievable. Isn't it a game software?

She arose by the thunder and jumped into my computer.

This is real Tosuka10.

Oh.
There is a never-opened door in this basement.

Are you sure it's a door?

It's too hard to open even by a drill.

I've been trying to open it, but I can't.

I can't see any door handles.

I'm sure you can open it.

If you are real Tosuka10,
Ruu.

Please connect the computer terminal.

Can you, Tosuka10?

Don't play a trick.

Maybe.

Can you?

Are you all right?

I'm afraid...

What does that smile mean?

What? Oh, yes, yes.

You want me to open it, right?

GAAAAAAAAAAAAA
Emergency. Evacuate immediately.

I put false data that something terrible was happened.

Oh, no!

What did you do?

Oh, God.

CLICK CLICK

It's too late.

The door.
RUMBLE

Wow

Emergency

Mr. Kaize.
Look!

I guess...

We came outside?
Please put your mind at ease, everyone.

Tosuka10

Tosuka10

BONK
Oh!

Is this...

Are you all right, Mr. Kaize?

P..lea..se...

Please.....

Disappeared!

It's a hologram.

It was a small room, wasn't it?
Where did she go?

No, it was a hologram.

Did you see it? It was Tosuka10!

It's a shelter.

What is this facility?

People built underground facilities at many places to protect themselves from nuclear arms and biological weapons.

There are 12th floors in this basement and about 100 people can live here for 10 years.

That's wonderful! Let's go down.
Can you help me, Ruu?
No, it doesn't open either.
Sure.

CLICK CLICK

It's dark, isn't it?
We did it, Mr. Ruu.

CLICK

We can go down.

CLEEEEAK

?
Ack

Squish!

Splash!

Are you all right?
PANT  PANT
There is no pool.

Is it a pool, Tosuka10?

It's not acceptable.

It's impossible!

You're right.

After 400 years, no wonder there are many cracks.

In ancient civilization age, people had very high technology of underground facilities. To dispose of radioactive materials from nuclear power plants and to flee nuclear bombs.

I heard this shelter was designed to use for 2000 years.
There was a radiation leak because of a meteorite fall about 100 years ago. It is still closed.

There is one place!

Don't tell me the same things are happening at the radioactive waste disposal facilities in those days.

Unbelievable.

It's leaking.

Radioactivity is also the thing that ancient civilized people left.

In ancient civilization age, some effective countries gathered energy and resources from all over the world.

They did and made anything they could with no thought for the consequences. That innocence is a kind of envy and romance now.

I'm going to survey this shelter closely from tomorrow.

Anyway, Tosuka10 seems to be real.
TAP TAP TAP

OK. I copied. I hope it works.

Here we go.
I am Tosuka10.

O, Oh!

I am Tosuka10.
Thank you so much today.

Thank you, Miss Giru, Tosuka10.

I'll send you travel tickets again.

Come and see me again soon!
He looks so happy.

What?

You copied like that on purpose, Tosuka10?

I was not going to copy from the first time. Can you bear that there is one more same thing like me in the world?

That was just right for him. Beautiful and silly Tosuka10.

Oh, well. I feel hard to go to the museum.

Look who's talking. He isn't a bad man.
He is happy!

Oh, I can use this Tosa10 for wallpaper for the computer. Lucky!
7. Tosuka10's Dream
Tosuka10, attract good people from all over the world and built a big city. Put everything under my control.

Now is the time to carry out Tosuka Project.

Mother Tosuka!
I don't think people in this world hope to do it.

We don't need Tosuka Project any more.

Stop the buggy computer!

Are you crazy, Tosuka10?

Stop it!

Stop!
It was discarded 400 years ago.
You must had a dream of it.

Mother Tosuka contacted me.

What's wrong, Tosuka10?

Yawn

You mean Mother Tosuka of Tosuka Project?
I'm a computer, remember?

Dream? Me?

I won't be surprised it.

We are going fishing with Giru today.

Oh, yeah.

The weather is all right.
Tosuka10 says she received...

I lose confidence if Giru says so.

a message from Mother Tosuka this morning. What do you think?

Wasn't it a dream? Are you sure you've got a message?

Ha-ha...

Is it a computer's answer?

Dream....
Though there are a lot of buildings, this ocean is still beautiful.

All rivers and oceans I know were full of sludge and cans from household and factories.

What do you mean?
People breathe the air cleaned by machines, drink water cleaned by medicines and eat foods grown in factories. They stay in a small box all day.

Wahoo

I didn’t know that.

Is it the way of ancient civilization?

They thought all people hoped so.

In Tosuka Project, they thought that much about future of mankind.
...the world of broken circle.

That is...

Circle?

WHO do you think hope such a thing?

Giru, look at your rod!

Wait...

GRAB

Yes.
A circle of life.
A circle of water.

The foods from the ground return to the soil.
Then we get from the ground again.
The water from the sky, we make it clean and return to the river.
Then we get it from the sky again.
Everything is connected like a circle.
The things I did come back upon myself.
I know!
A circle of life.

Really?
I learned so.

By the way, where did the sludge go in ancient civilization?
I heard some became coal-seam.

Oh, that was good.

I like this world.
RUMBLE!
PITTER
PITTER PATTER
Oh, no!
CLINK !?
CLUNK
Tosuka10!

Sea-water!
It's over.
Mother....

Mother....

A circle.

There is no circle.
You can't escape from me!

Ruu, Giru! Help me!

No, ....no!

My head is splitting!
I don't know. I still can communicate like this.

Is the computer broken?

Then what happened?

This is a totally waterproof computer. I don't think it breaks so easily by such a thing.

Disappeared?

I have no idea.

It seems that only Tosuka10 has disappeared.
Who am I?

I feel that.... Nobody needs me in this world.
I can hear a lot of voices.
I feel relaxed.

Won't she come back any more?
Whose voice is that? It's familiar.
Where did Tosuka10 go?

Tosuka10... Is it my name?

Is it all right to come back?
Why there is no contact?

I had no clues last night.

Hey!

Interference? Giru, can you hear me?

I'm home.

Tosuka10?!
Yeah! What a surprise!

Where have you been for 3 days?

I feel my head is cleaned.

In space.

Space!!

Then restructed Tosuka10 was born.

I think memory has been exhausted because she saw so many things in this world.
Well, for whatever reason, you've got to help me since you came to my computer.

All right.

Hey, hey, ...

First of all, management of flower seeds, purchase of chicken's food and windmills monitoring. Then second, ....

Ha-ha ....

......
Mother Tosuka,
I want you to see it.
This friendly future.
Kaka Island Area.
Future Ecologically Fantasy Manga
Kaka Island Area
